DETAILED ACTION

1. Claims 1-16 of U. S. Application 09/922,250, filed 8/6/2001, are presented for examination. Claims 1-11 are cancelled by Examiner's amendment. Claims 12-16 are allowed.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

3. The claims are amended as follows:

Cancel claims 1-11.

4. Authorization for this examiner's amendment was given in a telephone interview with George Helfrich on 5/28/2006.

Allowable Subject Matter

5. Claims 12-16 are allowed over the prior art of record.

6. The following is an examiner's statement of reasons for allowance:

Paragraph 112(6) is invoked by the "means for" language. Consideration of the claims in view of the specification yields the following: Items 3, 5 and 6 as recited on lines 3-11 of page 5 are novel and non-obvious over the prior art of record. This corresponds primarily to *means for* constraining, creating a pressurized plate model, creating an edge deflection, calculating a multiplication factor, and calculating a

corrected edge deflection, in the context of the specification namely, col. 9, line 29 to col. 14, line 20 (the analogous model).

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
